

## 2011 Moody Point View Enhancement Letter

It's that time for Moody Point residents to submit requests for view cutting on Lot 4. The procedure for submitting these requests must be accompanied by a clear explanation and marked photographs of the areas under consideration. Once completed, the requests are to be submitted to any Environmental Committee (EC) member (listed below). **The deadline for accepting requests in 2011, will be 5pm on Nov 11<sup>th</sup>, 2011.** Two or three members of the EC will work with the arborist to evaluate the requests, making sure they adhere to EC guidelines, current Department of Environmental Services (DES) rules and the professional opinion of the chosen vendor. All requests must conform to the MPCA Procedures for Lot 4 Individual Request View Maintenance. Requests meeting the above criteria will be approved and estimates sent to the residents who then must submit checks, made out to the vendor, before work can begin. The checks will be held until the cutting is completed to the requestors' satisfaction. Please note that this is an annual program. If residents miss the published date for request submission, they can submit again the following year.

The Request Form, EC Guidelines, MPCA Procedure for Lot 4 Individual Request View Maintenance and a copy of this letter are available on the Moody Point website: [www.moodypoint.com](http://www.moodypoint.com).
